HAITIAN CREOLE TRAINING LOCALIZATION

7 training courses — translation, native voice-over, on-screen text, exams & documents

OCTOBER 14, 2026 · PROPOSAL Nº LA-2026-014 · VALID 30 DAYS

ALL-INCLUSIVE CEILING

$6,841.50

OVERVIEW

WHAT THIS PROPOSAL COVERS

LORENZO Agency will localize all 7 Compass training courses from English into Haitian Creole — on-screen text, narration, video voice-over, exam content, and supporting documents — for a total not to exceed **$6,841.50**, delivered within 30 days. The project opens with a one-course pilot validated by your own employees; Compass is free to stop there.

Native human voice, studio-produced

Every video is voiced by a native Haitian Creole speaker — recorded in our Miami studio, professionally mastered, and synced to the original timing while keeping the original background audio. A real voice your employees will understand and trust.

Healthcare-grade translation

A consistent technical glossary (PPE, isolation procedures, waste types) applied across all 7 courses, a dual-engine cross-check that flags any segment where two independent systems disagree, and native-speaker review before any voice is produced.

Enhanced Learning & Safety — included

Visual highlights on critical safety steps, Haitian Creole subtitles on all videos, on-screen key-term cards when technical vocabulary is introduced, and end-of-video recap cards — at no extra charge.

PROCESS

HOW THE WORK IS PRODUCED

01

Translate

All course text, narration, exams and documents are translated with the healthcare glossary and cross-checked by two independent engines.

02

Native review

A native Haitian Creole reviewer corrects every script before recording, with specific attention to safety and infection-control terminology.

03

Studio session

The approved script is recorded by a native voice in our Miami studio and professionally mastered in a single production day.

04

Production & sync

Voice-over is assembled onto each video at the original timing, keeping the original background audio. PDFs and Excel are re-laid out to match the originals.

05

Verification & delivery

The native reviewer verifies every finished video. Up to two rounds of revisions are included before final delivery.

The pilot course — **My Great Start** — runs through this full process first, so Compass validates the voice and the translation with real employees before the remaining six courses are produced.
